NEW WAR TAXES BECOME EFFECTIVE TODAY AFTER BILL SIGNED BY WILSON

President Affixes Signature to Six Billion Dollar Tax Measure While Aboard Train

DISTRICT COLUMBIA DRY

Tax on Liquor and Soft Drinks Effective Without Further Delay

"Luxuries" Come in For Heavy Share of The New Taxes

(By Associated Press)

Washington, February 25.—Announcement was made on the arrival of the Presidential party in Washington today that the President had signed the six billion dollar war revenue bill.

The bill was signed aboard the special train last night before the President retired. This measure carries a rider making the District of Columbia bone dry.

Signing of the bill by the President puts into operation the machinery for collecting six billions of taxes this year. Higher taxes provided in the new bill go into effect today on liquor and soft drinks, including near beer, mineral waters and on tobacco and on so-called luxuries.

Anticipating the imposition of new taxes thousands of gallons of whiskey had been withdrawn from bonded warehouses within the last week with tax paid at the old rate of \$3.20 a gallon to escape the new rate of \$6.40.

Articles in the luxury class on which taxes go into effect today include automobiles and motor accessories and sporting goods.

On April 1st new taxes on railroad and steamship tickets, insurance, theater admissions and a variety of stamp taxes become effective.

Rumor Says Attache of Senate Did It As A Private Citizen

(By Associated Press)

Columbus, O., February 25.—Behind closed doors a special Senate committee today began investigating charges of alleged irregularity in the sending of a certified copy of the resolution ratifying national prohibition to the Secretary of State at Washington.

It was reported today that an attache of the Senate would admit sending the certified copy and he did so as a private citizen and that any private citizen might have forwarded the certified copy.

His only interest in so doing, it is said, was to have Ohio on record as one of the first states ratifying.

(By Associated Press)

Warsaw, February 24.—The Polish foreign office has received a telegram from Lemburg saying that an agreement was reached Sunday for the cessation of hostilities between the Poles and Ukrainians beginning at six o'clock Monday evening.

The agreement can be denounced on twelve hours' notice.

COST U. S. \$1,200,000,000 YEARLY

WASHINGTON, FEBRUARY 25.—(Associated Press)—It will cost the American people about one billion two hundred million dollars a year for the next 25 years to pay off the war debt, according to estimates of the treasury based on incomplete knowledge of what the final war debt will be.

This is made on the assumption that the net war debt will be in the neighborhood of eighteen billion dollars.

Interest would be \$765,000,000 a year to be raised by taxes and then repaid to bond holders.

In addition about \$417,000,000 would have to be provided yearly as a sinking fund to redeem all bonds in 25 years.

Both have won many decorations for their gallantry in the air.

DEMANDS RETURN OF AMERICAN ARMY

SENATOR JAMES A. REED

Senator James A. Reed, of Missouri received the greatest demonstration of approval heard in the Senate in recent years when he demanded the return of the American Army from Europe. Senator Reed assailed the War Department and those responsible for keeping the American boys in camps in this country. "If we could send 300,000 men each month to Europe through seas thick with submarines and sown with mines, why not now, when all seas are open and free from danger, return them as rapidly as they went," declared the Senator. If the ships needed were not forthcoming from the Allies he suggested the stopping of all Allied trade until we got the transports.

Cheering Throng Welcomes Chief Executive Upon Return Home

(By Associated Press)

Washington, February 25.—President Wilson arrived in Washington at 5:00 o'clock this morning. Because of the early hour he and Mrs. Wilson remained on their special train until 8:40 o'clock and then drove to the White House.

Passing through the station Mr. Wilson found a cheering crowd of travelers awaiting him. He acknowledged the applause by lifting his hat and smiling, while many scores of soldiers stood rigidly at attention as he passed by.

The President was faced with a busy week before his departure on his return to Paris. This afternoon he presided at a cabinet meeting, while tomorrow night he has a dinner engagement with members of the foreign affairs committee to discuss the constitution of the league of nations.

Thursday Mr. Wilson will review a parade in honor of returned District of Columbia soldiers.

YANKEE SERGEANT IN GERMAN PRISON

SERGEANT HALYBURTON

Sergeant Edgar Halyburton, of Stony Point, N. C., member of the Sixteenth Infantry, was one of the first Americans captured by the Germans. Sergeant Halyburton was a prisoner at the notorious Bastait camp for thirteen months. He was released with other prisoners when the armistice was signed. He tells of the terrible conditions at the prison camp, and how the Germans continually fed slops to the United States prisoners. The story may be used by the Government to compile the official report of the treatment of American prisoners in Germany, as he is perhaps the one man qualified to tell of the prison camp conditions. He was captured along with ten others on November 3, 1917, in the first raid made on the American trenches by the Germans.

Wires Theodore Burton That He Has Confidence in American People

(By Associated Press)

Washington, February 25.—President Wilson is very anxious to meet with governors of the states before he returns to Europe, probably March 4th.

Back in the White House after an absence of three months, President Wilson surprised members of the staff of the executive offices when they found him at his desk this morning.

His first act was to send a telegram to Theodore E. Burton, president of the League of Nations Union at New York, reiterating his confidence that the people of the United States with practical unanimity would support the league of nations.

Mr. Burton, former Ohio Senator, had telegraphed a welcome to the President as recognized leader of the league of nations movement.

It was said President Wilson has not made up his mind to appoint an Attorney General to succeed Mr. Gregory, or the calling of an extra session of Congress.

300,000 MEN WILL BE LEFT

(By Associated Press)

Washington, February 25.—Announcement by General Pershing's chief-of-staff in Paris that 18 national guard and national army divisions were scheduled to sail from France before July 1st apparently confirms reports that the expeditionary forces were to be reduced to a total strength of 300,000 by the end of the current fiscal year.

National Capital Now Bone Dry And All U. S. Territory Except Philippines Soon Will Be Arid

(By Associated Press)

Washington, February 25.—Except for the foreign embassies and legations, Washington went bone dry today under a provision of the new revenue law withdrawing immunity which the capital heretofore has enjoyed under the Reed amendment forbidding the importation of intoxicants into prohibition territory.

Hundreds of shipments of liquor on their way here were held up outside the district lines.

When wartime prohibition becomes effective July 1st all American territory will be dry except the Philippines.

The Transmission and Flexible Couplings

THE Studebaker Transmission is a separate aluminum-cased unit, located at an intermediate point in the chassis. It consists of a three-speed-and-reverse gearset containing a number of interesting features. It receives its torque through the flexible coupling, and delivers it through Spicer Joints and propeller shaft. Its design is characteristic of Studebaker simplicity, accessibility and lightness.

The construction and mounting give all the merits of a unit power plant, since it is closely associated with and tied to the motor by means of its supporting sub-frame, which also carries the rear motor weight, and is securely fastened to the main frame. The gears are of finest chrome nickel steel. The main transmission bearings are of heavy Timken type, four in number, easily adjusted and locked. Extra protection at both ends of the transmission case prevents oil-leakage.

This construction results in light weight, the best distribution of weight, and a design which absorbs driving shocks and the severe strains of suddenly applied brakes, clutch, or of a suddenly-accelerated motor. It also reduces noise, saves bearings, reduces friction, gives smoother performance and longer life.

The compactness, quietness and superior design of the new Studebaker transmission are particularly notable.

USE OF TRACTORS RAPIDLY GROWING

Are the days of the horse on Ohio farms numbered?

Whenever we hear of the farmer in Marion county, the one in Van Wert county and other points of the state that have substituted the tractor, the truck and the automobile for his horses, we know that the day may not be far off.

The war drive for greater crops with the accompanying labor shortage, opened wide the eyes of the farmers in Ohio to the possibilities of mechanical energy on the farm and 2000 tractors were placed in operation on Buckeye farms in 1918.

The labor shortage is still here. For years men have been drifting from the farms to the cities until even before the war took its toll, the farmer's help situation was precarious.

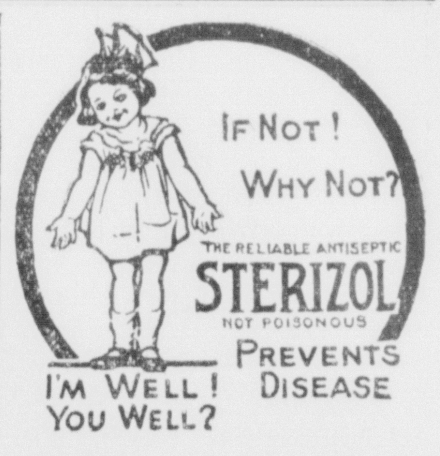

But the farmer who has availed himself of all the mechanical assistance supplied by the farm tractor has placed himself in a more independent position than some of his neighbors. He doesn't need as much help and can get it easier because a farm hand doesn't take much time to decide between a farm where he plows and prepares the soil with a tractor and where he follows the plow handles.

Ohio is an ideal state for the maximum use of farm tractors. Of its total of 272,000 farms, there are 94,000 of 100 acres or over and 25,000 of over 200 acres.—Contributed.

OLD BATTLESHIPS ARE CONDEMNED

(By Associated Press)
Philadelphia, February 22.—Three of the old-time leaders of the American navy have been condemned to the scrap heap. The Indiana, Massachusetts and Iowa, battleships, now in

the basin of the Philadelphia navy yard will shortly be destroyed as they have outlived their usefulness. Yet, twenty-five years ago, they were the equals of anything afloat. The Indiana class of battleship was regarded as a daring experiment. When the Indiana first went to sea all on board were impressed with the feeling that she might turn over in a heavy sea and go to the bottom. Although the old battleships are still serviceable, and they were used in the world war they are obsolete and therefore destined for the naval morgue.

Modern Progress Transforms Oriental City

Nothing more clearly impresses the difference between Great Britain and Turkey—the progress of the one and deterioration of the other—than the transformation which has taken place in Bagdad in the few months since that city was taken from the Turks by the British.

Withal that "the city of Bagdad" has figured picturesquely in romances of the Orient, it was typically Eastern in its backwardness, lack of sanitation and undeveloped resources.

Short as has been the time since the British entered Bagdad, sewers have been built, electric lighting installed and some of the streets paved. New industries have been established and conditions of living so improved in this old capital of the Caliphs that the change is almost beyond credulity.

The high lands of Palestine and Mesopotamia, which have lain fallow for centuries, are now being brought under cultivation by the most improved methods. The manufacturing potentialities of the water power of the River Jordan, famous in Bible history, will soon be utilized.

It is claimed that the Jordan is capable of furnishing power for manufacturing of every conceivable kind, and the location of Palestine, between the East and the West, gives to it great possibilities as one of the influential countries of the future.

The power of the "unspeakable Turk" seems forever at an end in Bagdad and sloth and picturesqueness succumb to modern progress.

Measured by Brains

Efficiency experts may claim that a man's best years for achievement are before thirty-five, but a man's ability in achievement is measured by his brain and it will be hard to convince the average individual that if a man's life experiences have expanded his mental powers so that they are greater at 50 years of age than at 25 he is not just that much better fitted for achievement.

Two excellent examples of the truth of this claim are found in President Wilson and General Foch.

An even more remarkable one is found, considering both the great achievements of the man and his 72 years of age, in Thomas A. Edison, who remains today the same brilliant thinker, the same untiring worker, the same giant among men who has been so long the admiration of America and of the world.

Entering but a short time ago upon his seventy-second year Mr. Edison says: "Judging by my ancestors I am really only a middle aged man. My great-grandfather lived to be 104, my grandfather to be 102 and my father 94. I do not expect to lower the average."

Nor does Mr. Edison expect to retire, nor plan any idle days in the last quarter of a century to which he confidently looks forward.

It is said that there is not a man in his employ, be he young or old, who can keep pace with him for rapidity of work and long continued intense application.

Mental Tests For Students

Columbia University, New York, is planning to inaugurate next September a radical educational experiment in applied psychology that will be watched with interest in its results by institutions of learning all over the world.

For the old system of entrance examinations which gaged only the student's scholarship, there will be substituted psychological tests to measure the student's general intelligence and mental alertness.

The idea of these mental tests is said to be based on the famous Binet-Simon system, an adaptation of which has been successfully applied to applicants for the Students' Army Training Corps. In requirements for admission, as given out by the New York Times, are included the applicant's health record, his character and promise of development and his school record.

There is much in the experiment which Columbia University expects to conduct that appeals to practical common sense. The test of a student's ability to make good is not always, by any means, found in examinations, helped out in numerous cases by pre-examination "cramming" and a good memory that at least carries the pupil through the examination ordeal.

While there are exceptions to the rule, those students whose examination papers show the highest grades are often outstripped in the world's successes by those who did not make as high marks but possessed keen mental alertness and grasp of the essentials.

The new idea which will soon be tried out is that if a student is sufficiently alert, sufficiently well balanced to pass the set of tests listed by Columbia, it will be an easy matter to coach up on regular subjects. But if he has the scholastic education without other ability he is not capable of profiting seriously enough by the higher education of a university of the character of Columbia to repay the great expenditure and equipment of such an institution.

POEM FOR TODAY

CAPTIVES

Far away green waters curl and the shrill gulls weave and whirl
 High above a whitened sandbar where the wrecks of ships are hid;
 There where great blue herons scream some old bayman in his dream,
 Thinks he hears the lookout's signal, giving news of Capt. Kidd.
 Captain Kidd? He used to come, with his casks of gold and rum,
 Beating smartly in his rakish brigantine across the bar,
 Came at night and rowed ashore and his staggering seamen bore
 Carven chests that they had brought to Fire Island from afar.

There one night some baymen died; captured some who crept and spied
 Upon Kidd and all his pirates as they dug behind a dune,
 Doomed to cruise the Spanish Main, never now to sail again
 Past the bar, the beach and Whirlpool, and across the long lagoon,
 In our minds we see that beach, with its shining yellow reach
 And the pink and tall marshmallow blooms that blow beside the bank,
 Just for gold we lost the Bay! Kinder to have let us stay
 In those blue, translucent waters where our dying fellows sank.

We may live for endless years; yet each time that memory clears
 We shall see that sheet of water which we natives call "The Bay"
 We would very gladly give all the future we've to live
 To fish once more with that small fleet that sails at break of day,
 One short hour—grant us that, in a two-reeced South Bay cat
 When the bar, where she is heading, is a smothered wash of foam
 Where the marching breakers roar, off Fire Island's southern shore—
 There's a word the waves are booming, and it's "Home! Home! Home!"

SOLDIERS' LETTERS

Mesves, France, January 20th, 1919.

Dear Sister and Brother:

I am well and having a good time. We are having pretty fair weather over here now, but it is so muddy a person cannot walk around without getting in mud almost to their shoe tops.

We don't do anything but eat and sleep over here now. We had a fine dinner yesterday, we had chicken, mashed potatoes, and gravy. That is fine to get in the army I think. Last night the Red Cross gave us hot doughnuts and hot chocolate. The Red Cross has done wonderful things for us boys.

I don't think I have ever told about the route I traveled when I came to France so I will tell you in this letter.

I will begin at Camp Mills, L. I. We loaded on the steamship Arena British boat, about nine o'clock one morning in October, 1917. I do not remember the exact date now. Then we pulled out of Hoboken about 2 o'clock that afternoon.

We sailed for a couple of days and nights and landed at Halifax, Canada, we were there one day and night and pulled out again.

We sailed for ten days and couldn't see anything but water. The water was very rough sometimes. At last we sighted land and we boys thought that was France, but it wasn't. It was Ireland, we pulled in there and remained a couple of days at Belfast. The ship crew claimed the submarines ran them in there and they had laid mines. They swept the channel good and we pulled out again and sailed several days and landed at Liverpool, England. We stayed in England about two weeks and then started for France.

They put us on an old cattle boat and we crossed the English Channel. The water was terrible rough. It took about 12 hours to cross channel and we at last landed at Leharve. That was the last of the boat ride, but I hope to take just one more boat ride soon.

After we landed at Leharve we were loaded on an old French freight train and taken to Remicourt, where we stayed and drilled a while. Then we went in the front line trench February 12, 1918 at Lorraine, where we stayed 112 days and listened to the roar of the guns.

There wasn't much fighting there at that time but we awoke the old Boche up all right. I will tell you about the big battle later on.

QUICKSAND

Quicksand looks like any other sand. Until you step into it. The man who stays out of debt has his feet on the solid ground of the road that leads SOMEWHERE. Many folks never appreciate money until they have had it and lost it. The man who spends all he makes—and more—is just as imprudent as a person that would go into a cold country without any means of keeping warm. And the world IS cold to down and outers. Debt is the quicksand into which many a man has sunk and left no trace—but remorse.

GREAT FRENCH SACRIFICE CALLS FOR WORLD'S GRATITUDE

The French have suffered and bled more than any other nation at war. Of her 36 million population, 6 million were placed in the trenches and have poured out their blood on the altar of Liberty. America will ever remember this heroic sacrifice. It is likewise not unkind of the great service to the world rendered by the French peasants who have given it a perfect remedy for stomach, liver and intestinal disorders which is reported to have relieved incalculable suffering, saved thousands of lives and prevented innumerable surgical operations. Geo. H. Mayr, prominent Chicago chemist, imports and sells it in this country under the name of Mayr's Wonderful Remedy. It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. News of Interest to Women

Governor Cox will be the speaker at the big suffrage luncheon to be held in Columbus Thursday in connection with the 33rd annual convention of the Ohio Woman Suffrage Association.

Members of the Legislature will be speakers at a dinner held the same evening, the balance between Republicans and Democrats being carefully maintained. Miss Florence E. Allen, Cleveland attorney who won distinction in the suit before the Ohio Supreme Court which established the right of charter cities to extend municipal suffrage to women, will also speak.

It is expected that a number of local women will attend the convention in session Wednesday and Thursday.

The picture on the screen happened to be of the melodramatic variety, and the woman, sitting back of a stout mother and her brood of three whose ages pivoted around six, could not help wondering why she had brought them. Then remembering the youngsters she had seen at problem plays she ceased to wonder and settled herself to watch her neighbors rather than the pictures. Loudly the stout lady read out the titles to her eager three, and swiftly the

action of the story sent on toward the only possible climax, the shooting of the villain. Suddenly her voice rang out louder than usual. "Close your eyes now, quick! he's going to kill the bad man. Don't look, I tell you. I don't want you to see it Johnny, you've got your eyes open. Wait till I get you home!" Then spoke Johnny, and his words were those of wisdom. "Gee, Ma, what d'ye bring us to the movies for if we can't look at the exciting parts?" — New York Times

The meeting called as the finale to the Enrollment of Washington and Fayette County women in the Suffrage Campaign, the list to be turned into the State Suffrage Convention in Columbus this week, met with enthusiastic response and the assembling of one hundred women at the Club, Federated rooms in the "Y" Monday afternoon.

Mrs. Jessie Persinger, chairman of local organization, presided. It is a tedious thing to make a house to house canvass and the women who have been busily engaged in this work asked for a couple of days extension in order that the work may be fully completed. The enrollment demands personal signatures, which makes securing the names in the county especially difficult. But as the county is lined up in favor of women having the right to vote much more strongly than in town and the town enrollment showed that it had gone "way over the top" there was no doubt that Mrs. D. S. Craig local enrollment chairman, would turn into the convention Thursday a sufficient number of names to show decidedly where Fayette county women stood on the woman suffrage question.

The interest shown by the women assembled was an inspiration to the speakers who presented the purpose and success of the enrollment.

Mrs. D. S. Craig, vice-president of the local organization and delegate to the State Convention, presented the points leading up to the necessity of taking the enrollment especially done so that the challenging question as to whether or not, the majority of women wanted the voting privilege would be decided. She impressed as the big underlying cause of women's desire for the ballot her anxiety to accomplish things in the home and in connection with home life that no weapon but the vote can effect.

Mrs. Frank E. Haines represented the women of the county and spoke with enthusiasm of the awakened condition of women throughout the county as she had found it. The results of her own experience led to the expressed belief that women in the country are largely in sympathy and qualified to take part in this movement.

Owing to the inability of Mrs. Alice

Taggart, County W. C. T. U. President to be present, Mrs. John A. VanGundy was called upon to represent the W. C. T. U., as an organization which has taken a leading part in the Suffrage movement, and made a spicy little talk that was heartily applauded.

Mrs. G. B. Franklin, Probation Officer, summed up in a directness and force that went far towards conviction the chief reasons why women think that suffrage ought to be given to the American women and presented the ballot as a necessary weapon. She said that as far as social work was concerned without the ballot women were up against a stone wall and gave instances in the experiences of Jane Addams of Hull House, during the time that she had been with her in Chicago settlement work, proving the difference woman's having ballot made in the success of their efforts. "It took Jane Addams one year to put through a law with the ballot that she had not been able to get thru the Legislature of Illinois in eleven years without it."

Mrs. Franklin presented the need of Woman Suffrage as a protection for home and children, saying "you can't rear your own children in your own homes. There is another circle where the mothers must go which is just as important as the inner circle. The mother must create an atmosphere outside of the home to help rear her children in the inside. It is a mighty poor mother who won't get outside of her home when it is a question of protecting her children and making a pathway outside that is safe for them and the need for today is for a home-maker rather than a housekeeper."

The closing talk was clear and concise, made by Miss Amy Conn, High School Principal, representing the women of the city. She argued that women belong to the same country, have the same love for justice, are under the same courts and the same laws, pay the same taxes, while having no say concerning them, and expressed the conviction that the vote given to women would mean better child laws, better sanitation, better housing and better enforcement of social laws.

The Mothers' Circle met with Mrs. John McFadden Monday afternoon. After all business was transacted an unusually interesting program was enjoyed.

Mrs. G. H. Woodmansee gave a paper on "The Necessary Chart for the Boy and Girl by which to Steer Life's Voyage of Discovery."

Mrs. W. H. Lipsett a paper on "Personal Adaptability, Preference, Health, Service and Special Training as Bases of Vocational Success."

Both papers rendered valuable help to the mother's present. The musical number, duet "Saus Souci" by Ascher, given by Mrs. W. E. Robinson and Mrs. Frank Blessing was greatly enjoyed.

Mrs. Josephine Kerr delightfully entertained the Clonians Tuesday afternoon.

The reading of Dunsaney's plays and discussion was followed by the serving of a tempting collation.

Miss Margaret Fullerton and Mrs. V. R. McCoy were guests. The Mission Study Class held an interesting meeting in its Study of Women of the Orient, with Mrs. Wm. Boynton Gage Monday afternoon.

The informal dance of the Chi Delta Chi Club was a much enjoyed affair at the G. A. R. hall Monday night.

Good music, piano and drums, was furnished by Miss Mary Ellen Briggs and Robert Heath.

The birthday of Mrs. I. H. Carman was joyously celebrated, Sunday, at the home on the Wilmington pike, with the children, Mrs. C. F. Eichelberger, of Dayton; Mrs. R. A. Braden, of Good Hope; Mrs. E. L. Bush, Mr. Paul Carman and their families home for the occasion.

The table was prettily adorned with potted plants, and a menu of delicious viands was served.

Mrs. W. S. Chaney was called to Leesburg Monday by the illness of her brother, Mr. Anderson Carson.

Mrs. Anna Morgan went to Columbus today to meet a Hart Millinery representative from Cleveland.

Mr. and Mrs. George Ghormley and Mrs. Hugh Ghormley, of Ghormley's Station, are shopping visitors here today.

Miss Stanley, representing the Standard Fashion Co. of Chicago, is spending a couple of weeks in this city at Craig Bros. Store.

Mrs. Virgil Post and little son returned the latter part of the week from a fortnightly visit with Mrs. Post's sister, Mrs. Arthur Miller in Dayton.

THIEF MAY FIND IT COSTLY WORK

The thief, who on Sunday night, stole an ordinary spot-light from a Ford car owned by W. W. Wilson and which had been left in front of the Grace M. E. Church Sunday night, may find it a very dear piece of work before he is through with the affair, as the Fayette County Anti-Horse Thief Association, to which Mr. Wilson belongs, has taken the affair up and offers \$50 reward for the apprehension of the thief.

It is expected that within the next few days the guilty party will be placed under arrest, as there is reason to believe that the man was seen removing the spot-light, and that this information will be given to the police.

FIVE ARE FINED FOR GAMBLING

It was announced at the Mayor's office, Tuesday morning that so far five persons have been fined on gambling charges growing out of the raid on a house on East Elm street about midnight Saturday night.

These men were fined from \$5 to \$25 dollars. They are: Willie Anderson, Joe Dunson, Chas. Easton, John Mayo, colored, and Ed Douglas, white. The only one fined \$25 and the costs was Dunson.

It is announced that three other arrests will be made as soon as possible, making nine in all who were present at the game Saturday night.

THE MEN IN CLASS A1

A sound, healthy man is never a back number. A man can be as vigorous and able at seventy as at twenty. Condition, not years, puts you in the discard. A system weakened by overwork and careless living brings old age prematurely. The bodily functions are impaired and unpleasant symptoms appear. The weak spot is generally the kidneys. Keep them clean and in proper working condition and you will generally find yourself in Class A. Take GOLD MEDAL Haarlem Oil Capsules periodically and your system will always be in working order. Your spirits will be enlivened, your muscles supple, your mind active, and your body capable of hard work. Don't wait until you have been rejected. Commence to be a first-class man now. Go to your druggist at once. Get a trial box of GOLD MEDAL Haarlem Oil Capsules. They are made of the pure, original, imported Haarlem Oil—the kind your great-grandfather used. Two capsules each day will keep you toned up and feeling fine. Money refunded if they do not help you. Remember to ask for the imported GOLD MEDAL Brand. In three sizes, sealed packages.

FINE SINGER AT PALACE THEATER

A big attraction is found at the Palace Theatre this week in Harley E. Newland, soldier singer who sings twice at each show.

The young singer has a splendid voice and is very pleasing in appearance. His singing of "Daddy Mine" made a hit Monday night and was a big drawing card for the large houses at both performances. He will sing new songs tonight.

Mr. Newland was with Vogel's Minstrels before entering the service.

DUNSON HEARING UNDER WAY TODAY

Hearing of the charges of the illegal sale of intoxicants lodged against Joe Dunson, colored, by State Liquor License inspectors, was under way before Mayor Dahl Tuesday with considerable interest manifested in the outcome, and a number of witnesses being examined.

The charge was filed some time ago but trial of the case had been postponed a time or two until today.

Washington, February 25.—Republican members from Kansas today decided to present the name of Representative Campbell, of Kansas, when the House Republicans meet in conference Thursday night to nominate a speaker for the next House.

HUGE SEAPLANE WITH FIVE MEN REPORTED LOST

Plane Started From Norfolk Believed to Have Plunged Into Ocean Near Coast

Radio Operator Reports Seeing Plane Plunge

(By Associated Press)
Washington, February 25.—Loss of the bi-seaplane No. 3495 with three ensigns of the naval reserve and two machinists' mates off the Virginia coast was officially announced today. The machine started on a flight from Norfolk, Sunday, and failed to return. A radio operator reported that afternoon that he saw a seaplane plunge into the water and disappear near Fisherman's Islands. Search of the coast failed to disclose any trace of the plane and today it was officially given up as lost.

ENGLAND FACES COAL PROBLEM

London, February 25.—(Correspondence of the Associated Press).—It is calculated that \$200,000,000 will be added to the annual expense of the collieries of Great Britain and \$1 a ton to the cost of coal to the consumer if miners are granted higher pay, shorter hours and modern methods, which they demand and if they do not produce more coal under those conditions.

Although the miners in America are fewer, it is pointed out, the production there is enormously greater, owing to better working conditions, modern machinery and modern mine equipment. Sympathy with the demands of the miners in their demands is somewhat with held on the ground that they were given preference over others in demobilization. Mine owners claim that, because of this, the workmen should place the supply of coal on a satisfactory basis before raising questions of hours and wages.

PASSED BY THE SENATE
Washington, February 25.—A joint resolution by Senator Lodge, of Massachusetts, authorizing a Congressional commission to recommend appropriate legislation for participation by the United States in an observance of the three hundredth anniversary of the landing of the Pilgrims at Plymouth, was passed by the Senate and sent to the House.

HAVANA PLANS MODEL MARKET

Havana, February 5.—(By Mail).—A model market, to cost \$2,400,000 is to be constructed here to take the place of the old time market places and newer street markets scattered about the city, products of the wartime food scarcity and consequent manipulation of prices by merchants. It will be a beautiful marbled structure.

Havana now has only one central market building, the Colon Market, located in the heart of the city, but dark, poorly ventilated and unsanitary. The other, the "Plaza de Vapores," or "Tacon" market, recently was closed by the city health authorities because of its unsanitary condition.

LATE TEACHER OF FALLEN HERO WRITES KINFOLK

Mrs. Mary Hard Receives Letter Conveying Information Regarding Burial Place of Clarence M. Hard, Killed in Action.

Mrs. Mary Hard of this city has received word from the former Sunday School teacher of her hero son, Clarence H. Hard, of the famous 6th U. S. Engineers which offers the first intimation of the burial place of the young man and while the burial place is not given in the letter, the names of the men who buried him after he had died a hero's death are given, so that the sorrowing family will soon know for the first time the resting place of their loved one.

The letter, which is dated February 22, also tells of the enormous sacrifice made by the 6th U. S. Engineers

CLARENCE M. HARD

The letter follows:
My Dear Friends:—

I had the honor and pleasure of knowing Clarence M. Hard and of entertaining him in my home. While he was stationed near us at Washington Barracks he was a member of my Sunday School class, so you see I know him real well. I am in deep sympathy with you in your great loss, but am sure that you feel the cause was great for which he laid down his life. We had in our class twenty of the young men from that wonderful 6th U. S. Engineers known all over the world for their wonderful deeds. In a recent letter from Mr. Sullivan he told me he helped to bury Mr. Hard, he and a Mr. Middleton, of Co. F, 6th Engineers, were the only ones out of the 176 men from our one class who gave their lives.

We are soon to have a special service for our men, special mention being made of those who will never come back. Of course these men are on our honor roll. We want to know more about Mr. Hard's home life, his church connections, etc. I wonder if you will be kind enough to send me some such information and if you have a picture of him to spare, could I have one.

Again let me tell you we as a class are in perfect sympathy with you. I am very sincerely, Mr. Hard's teacher,
Mrs. J. B. Kinnear,
1882 Columbia Road,
Washington, D. C.

FINAL ACTION ON POST OFFICE APPROPRIATION

(By Associated Press)
Washington, February 25.—Final legislative action was taken today on the \$400,000,000 post office appropriations bill which carries \$200,000,000 for road construction during the next three years. The senate adopted the conference report without a record vote and the measure goes to President Wilson.

CHINESE AGAIN MAKING CLAIMS

(By Associated Press)
Peking, February 19.—Denials by Baron Chinda of the Japanese delegation to the peace conference and other Japanese officials that Japan had exerted pressure against the activities of China's peace conference delegations have brought from Chinese officials reiteration of the original declarations.

The reiterated were brought out from Peking that the statement regarding Japan's action was due to German propaganda.

LEWIS FAVORS LEAGUE PLANS SEES NO DANGER

Senator From Illinois Declares League Would Not Abrogate Monroe Doctrine

(By Associated Press)
Washington, February 25.—The first address in the senate in defense of the proposed constitution of the league of nations was delivered Monday by Senator Lewis of Illinois, Democratic whip, who took issue with the recent criticism made by Senators Borah of Idaho, Republican, and Reed of Missouri, Democrat.

Speaking for nearly two hours, Senator Lewis denied contentions of opponents of the league that it would abrogate the Monroe Doctrine, that it was a departure from the principles of Washington and Jefferson, that it would dictate world armament and that America would be outvoted by the United Kingdom. An immense overflow audience listened intently to the speech and vigorously applauded when the Illinois senator concluded. Senator Lewis' address is to be followed soon by many other discussions of the league. Senator Owen of Oklahoma, Democrat, and Cummins of Iowa, Republican, will speak Wednesday, and the debate is expected to continue daily until Congress adjourns, one week from tomorrow. Senator Sherman of Illinois, Republican, announced today that he would make an address Monday.

In the house today Representative Lundeen of Minnesota, Republican, introduced a resolution proposing a national referendum on the league, to be called by the secretary of state within 30 days after its formal submission to the senate. The proposal for an expression of popular opinion on the league was referred to by Senator Lewis in concluding his remarks.

"It will be before the American people," the Illinois senator said. "The people will pass on this document in the form of a treaty, through their senators as their representatives. But it also will have the added advantage in that its distinguished champion will go to his countrymen with the truth. And they will approve of his undertaking, as they have everything with which he has gone to them. Yes, the people will decide."

Think of Your Teeth!

DON'T WAIT UNTIL A DENTAL BILL REMINDS YOU OF YOUR NEGLIGENCE.

Most people do not give any thought to the condition of their teeth, until something happens to force attention. A dental bill is the usual reminder. A better plan is to call on your dentist at regular intervals and have your teeth examined and cleaned. If you will do this and use LUTHOL every day, you'll have less trouble with your teeth. This dentifrice cleans and whitens the teeth and keeps the mouth in a wholesome condition. Price 50c.

Teach the little folks to use it, too. We also handle an excellent line of Tooth Brushes, Mouth Washes, Dental Floss and other Requisites for keeping the teeth sound and attractive.

RAINBOW BOYS DEPART FOR U. S. ABOUT APRIL 25

Announcement Made That Rainbow Division Will Start For Home About April 25

(By Associated Press)

Coblenz, February 25.—The approximate dates of the departure for home of two national guard and two national army divisions, comprising half the American army of occupation, were announced today at Third Army headquarters.

The Thirty-second Division and the Forty-second (or Rainbow) Division will leave about April 25, and the Eighty-ninth and Ninetieth Divisions of the national army during June.

According to the plan the places of departing divisions will be taken by three regular army divisions. The force of occupancy then will consist of the First, Second, Third, Fourth, Fifth, Sixth and Seventh Divisions of regulars.

Details for the departure of the men by way of the Rhine and Holland are being worked out.

The Thirty-second Division is made up of men from Michigan and Wisconsin. The Forty-second Division comprises national guardsmen from all sections of the Union. The Eighty-ninth Division was recruited in Kansas, Missouri, South Dakota, Nebraska, Colorado, New Mexico and Arizona and the Ninetieth in Texas and Oklahoma.

The 166th Infantry, of which M. Company of Washington C. H., is a part, is included in the famous "Rainbow" Division.

FLYER LOOPS THE LOOP 190 TIMES

Dayton, O., February 25.—Lieutenant Charles Keyes, instructor and leader at McCook Field, yesterday made what officials and associates believe to be another world's record in stunt flying.

Using a new type J. N. 4-D machine, Lieutenant Keyes left the ground at McCook Field at 11:30 o'clock and returned 45 minutes later, having looped the loop approximately 190 times. The performance, it is said, will not have official sanction, because it was not made on test and the counts of observers vary a little.

Lieutenant Keyes said he was just "practicing" and in a few days meant to smash the official record, made in Texas, of 166 loops. Keyes won his wings at Rantoul. He has been variously stationed at Wilbur Wright, Ellington and McCook Fields. His home is in Lincoln, Neb.

TYPHOID CASES ON THE DECREASE

(By Associated Press)

Columbus, O., February 25.—Monthly totals of typhoid cases reported to the State Department of Health in 1918, announced by the department today, shows a decrease in prevalence of the disease last year, although not as great a drop as occurred in 1917.

Slightly under 3,000 typhoid cases were reported in 1918, but this total is believed to be only about fifty per cent complete. Reports for 1917 totaled 3,263 cases and were probably even less complete than last year.

HANS WAGNER BROADENS FIELD

(By Associated Press)

Pittsburg, February 25.—Hans Wagner, the "grand old man" of baseball and hero of many a diamond battle, is about to enter politics. Through the persuasion of his friends, it is said, he has been induced to become a candidate for commissioner of Allegheny county.

Wagner has not been endorsed by any political faction, but says he will seek the support of his legion of friends first, after which he believes one of the parties, perhaps all of them, will see him as a candidate to be reckoned with. As he is known by sight or reputation to virtually every man, woman and child in Pittsburg, his sponsors feel confident that he will be a factor in the campaign.

Hans has been mentioned before as political timber, but this is his first appearance in the arena. He is a business man as well as a famous ball player.

RELIEVED RHEUMATICS ENTHUSE

ALL LOUD IN THEIR PRAISE OF "NEUTRONE PRESCRIPTION 99"

A working man buying a bottle of "Neutrone Prescription 99" was asked how it was helping him. "Helping me," he replied. "Why, there is nothing on earth like it. You don't know how my poor swollen, stiff joints and muscles pained and burned. I was nearly crazy with suffering and the worry of losing so much time and pay. "Before I knew about 'Neutrone Prescription 99' I tried all kinds of tablets and 'brimons,' but one bottle of 'Neutrone Prescription 99' helped me so much that I am never without it now. All pain and swelling is gone and I feel like doing things."

"Neutrone Prescription 99" certainly must be a wonder," the druggist replied. "We have never handled anything like it. They all say the same," 50c and \$1.00 the bottle.

COUNTY MEETING OF PYTHIANS WAS HELD LAST NIGHT

Grand Chancellor-elect Tidd And County Deputy Sheeley Among Speakers At Big Gathering of Pythians Here.

The annual county convention of the several Knights of Pythias lodges in Fayette county, was held at the Castle Hall of Confidence Lodge in this city, Monday night, with a large attendance and big delegations from all Pythian lodges in the county.

The meeting was held under the direction of County Deputy Thurman Sheeley, of Bloomingburg, and followed a business session during which the rank of Knight was conferred upon three candidates—two from this city and one from Madison Mills.

Grand Chancellor-elect Tidd, of Stockdale, Ohio, was present and delivered one of the chief addresses of the evening. County Deputy Thurman Sheeley, also delivered an address. Several speakers from the visiting lodges and from Confidence lodge were called upon and responded with short speeches.

Lunch was served during the evening, adding much to the social hour which brought the event to a close.

It was brought out during the evening that all Pythian lodges in the county are growing, and have been doing considerable work this year, a large number of new members having been enrolled in the course of the past few months, with prospects of many more being knighted before the winter and spring months come to a close.

RED CROSS BUSY AT CHILlicothe

(By Associated Press)

Camp Sherman, Chillicothe, Ohio, February 25.—In accordance with a recent order from Red Cross national headquarters, special attention has been given during the past few weeks to recreation work at the base hospital here.

Amusement of the boys is being extensively provided for. Two wards in the hospital have been set aside for use as gymnasiums. Rowing machines, stationary bicycle and a basketball outfit have been furnished to complete the equipment. An army song leader has been obtained for special work with the hospital detachment and in convalescent wards. A daily evening program provides dancing, music, pool tournaments, vaudeville shows and moving pictures for the convalescents. Readings are given for the eye case patients at stated hours. The Red Cross furnishes daily newspapers from neighboring states for use of the boys at recreation houses.

FORTUNE IN FURS IN MADISON COUNTY
 Most people believe that fur-bearing animals are almost extinct in Madison county, yet this is not true. There are probably twenty-five buyers in Madison county who ship their products, and at a low estimate, they have bought this season at least \$100,000 worth of skins. One buyer, Raymond Sanford, Rosedale, reports buying \$8,000 worth, and says there are several other buyers who have gone beyond this figure.—Madison County Democrat.

You Just Try NR For That Indigestion

Get your organs of digestion, assimilation and elimination working in harmony and watch your trouble disappear. NR does it or money back.

One Day's Test Proves NR Best

The stomach only partly digests the food we eat. The process is finished in the intestines where the food is mixed with bile from the liver.

It must be plain to any sensible person who realizes this, that the stomach, liver and bowels must work in harmony if digestive troubles are to be avoided or overcome.

This fact also explains why sufferers from indigestion also suffer more or less from headache, biliousness and constipation.

If you are one of the many unfortunate persons who cannot eat without suffering afterward, if you are constipated, have bilious spells, headache, coated tongue, bad breath, variable appetite, are nervous, losing energy and feel your health slipping away, take this advice and get a box of Nature's Remedy (NR Tablets) right today and start taking it. Give it a trial for a week or two.

Just see how much better you feel. See how quickly your sluggish bowels will become as regular as clock work, how your coated tongue clears up and your good, old-time appetite returns. See how splendidly your food will digest and how your energy, "zip" and "ginger" revive. Just try it.

You take no risk whatever for Nature's Remedy (NR Tablets) is only 25c a box, enough to last twenty-five days, and it must help and benefit you to your entire satisfaction, or money returned.

Five million boxes are used every year—one million NR Tablets are taken by ailing people every day—that's the best proof of its merits. Nature's Remedy is the best and safest thing you can take for biliousness, constipation, indigestion and similar complaints. It is sold, guaranteed and recommended by your druggist.
